IT'S NOT JUST BUSH - IT'S A FOREST!

While this 79 acre (31.87 ha) property is well treed, including the planted forest, it is still suited to some grazing under the canopy. It is well fenced, well watered from established dams and has cattle yards in place to handle your herd!

It's a north facing, brick home with a new covered deck and lots of windows on the northern side. In fact it's almost total glass on the northern side. All the fully tiled living areas are on the northern side, and there is plenty of living space to enjoy ... lounge room, dining room, sunroom/rumpus and the kitchen. The living areas and the new covered deck all enjoy views over forested country and the front dam. Except for a very distant view of forest, you can't see out of the property, and you can't be seen. Total privacy!

The kitchen has electric cooking, a pantry and an island bench. There are 3 bedrooms, all with carpeted floors and built-in-robos. Two bedrooms have en-
